

COMMON PROBLEMS & FAQ

Crypto Pulse Knowledge Base

What can I do at Crypto Pulse?

You can buy seconds on Crypto Pulse for short-term profit, participate in AI arbitrage for daily gains, and use your wallet funds to mine for profit [cite: 50].

Is Crypto Pulse safe?

Our team consists of software engineers, marketing specialists, trading experts, and legal staff [cite: 51]. Our core members own and operate a full-stack media company, giving us a unique advantage in the field [cite: 52, 53]. We have over 40 years of experience in technology-based businesses [cite: 53].

Understanding AI Arbitrage

AI Arbitrage is a strategy in the decentralized finance (DeFi) space where investors pledge crypto assets to receive returns, usually as interest or additional tokens [cite: 56]. This involves contributing to liquidity pools to facilitate transactions like token swaps [cite: 57].

Asset Deposits and Withdrawals

We allow direct deposit of assets such as liquidity pool tokens [cite: 58]. Unlike "zap" features that execute immediate buys/sells, our asset deposits ensure a 0% price impact when depositing into the vault [cite: 59, 60].

Credit Scoring & Withdrawal Limits

Credit scores are assigned based on AI Arbitrage participation, contract trading, and funds deposited [cite: 61]. These scores determine your weekly withdrawal limits [cite: 61]:

Credit Score Range	Maximum Weekly Withdrawal
580 - 620 Points	\$10,000 (or equivalent) [cite: 62]
621 - 650 Points	\$50,000 (or equivalent) [cite: 63]
651 - 680 Points	\$100,000 (or equivalent) [cite: 63]
681 - 720 Points	\$500,000 (or equivalent) [cite: 63]
721+ Points	Unlimited Withdrawals [cite: 64]

Escrow and Platform Fees

Fees are paid when trading or managing assets on decentralized exchanges [cite: 64]. These include:

- **Asset Custody Fees:** Charged by custodial service providers if users choose to secure assets via custodial services [cite: 65, 66].
- **Transaction Fees:** Used to compensate liquidity providers and maintain platform operations [cite: 67, 68].
- **Withdrawal Fees:** Incurred to cover network fees and related costs when moving assets [cite: 70, 71].
- **Service Fees:** Applied for additional services like trust programs, asset management, or advisory services [cite: 72].
- **Administrative Fees:** May include transaction report generation or compliance review fees [cite: 74].
